GG- DR FELIX GOURAUD - Sir-Please send per bearer another cake of the Italian Chemical Soap. Pray do let it be equal to the last, which I take this opportunity to assure you performed a remarkable and speedy cure of my blotched and diseased face, as well as rendering my rough and tanned hands and face be suffully white. Living on a farm all my life, I am necessarily subject to such evils, but, happily, your medicated soap relieves me like a charm in two or three washings. You are welcome to publish this if you please, as the fact is known to all this neighborhood.

ing—"HOW MY HEAD DOES ACHE—Can you tell me any thing that will cure me?" Yes, said a friend the other day, try Sherman's Camphor Lozenges—I have known them to cure severe cases of headsche in a few minutes, and I have no doubt they will cure you. They are also a sovereign remedy for drowsiness, sick head-ache, palpitation, nervous affections, and sea sickness, giving more speedy relief than any medicine in use. You should not be in church without them; they will enable you to keep from sleeping—try them. The genuine may always be had of Dr. Sherman, 106 Nassau street, or of spring; 188 Bewery, corner of Spring; 77 East Breadway. corner of Market st; 3 Ledger Buildiags, Philadelphia, and 8 State atreet, Boston.

SAFARILLA, GENTIAN AND SARSAFRAS, prepared by the New York College of Medicine and Pharmacy, established for the suppression of quackery. This refined and highly concentrated extract, possessing all the puritying qualities and curative powers of the above herbs, is confidently recommended by the College, as infinitely superior to any extract of Sarsaparilla at present before the public, and may be relied on as a certain remedy for all diseases arising from an impure state of the blood, such as scrolula, salt-rheum, ringworm, blotches ar riegles, ulcera, pain in the hones or joints, nodes, cutaneous eruptons, ulcerated sore throat, or any disease arising from the secondary effects of syphilis or an injudicious use or mercury.

Saturday, June 29-6 P. M. The Stock Market improved to-day very much. The operations were quite large, and prices show quite an advance. At the Old Board, Long Island went up 2; per cent; Canton, 2½; Norwich and Worcester, 3½; Harlem, 6; Mohawk, 1; Stonington, 1; Farmers' Trust, 1½; Rending Railroad, 1; Vicksburg, 2; United States Bank, 3; Ohio 6's, 1; Indiana, 1; Illinois, 2. At the New Beard Harlem advanced 6 per cent; Canton, 8; Long Island, 22; Norwich and Worcester, 2; Farmers' Trust, 3; Illinois, 2; Ohio 6's, 1; Vicksburg, 2; United States Bank, 2.

The improvement noticed to-day in the stock market, cannot be attributed to any other cause than that prices have touched bottom for the present. The recent explo-sions among the brokers in Wall street, completely un-settled the market, and it was necessary that prices should come down to a very low point, to wipe out the differences here and place things on a better basis. Many of the old contracts, made at high prices, have expired, and operations for the future will have a good start. The brokers have, within the past week or two, had many difficulties to contend against in settling up. July will, undoubtedly, be a very quiet month, but we look for busy times in the stock market after the 1st of August.

American Manufactures.

There is not much doing in domestics. This season, except for little southern demand, is generally the dullest of the year. There have been exported from this port, however, so far this month a few over five thousand packages of domestic cottons, and last week three hundred bales were shipped from Boston to Calcutta, Gibratter, Manilla, and the West Indies. We give the last quotations here and at Boston.

Notwithstanding the inactivity and apparent steadiness in the markets, there is one important fact to be seen: that American Manufactures are in a high state of prosperity and are rapidly increasing in every section of the country. With one or two exceptions, owing to this prosperity, the value of the stocks in the eastern mills is considerably above par.

This market has been inactive for sometime, and prices have, therefore, fallen a little at a time for several weeks, in order to meet the views of purchasers and lessen the quantity in store. We now quote Gennesee flour at \$4 33 a \$4 50, and large lots could probably be obtained at a sixpence less a barrel. This, we believe, is the lowest point durch has reached in this, the Philadelphia, or Baltimore maskets since 1821, in which year the article tetched in mid winter onty \$4, and averaged throughout the year but \$4 50 a \$4 75.

We have in previous articles mentioned that afforts had been made since the year set in to raise the prices of breadstuffs by sending all that arrived into store, and circulating reports that the supply in this and other markets was small. This was done mainly by those who held large stocks to raise the price until they got rid of the same, and also by others who anticipated, or were in hopes of a demand from abroad. All hase efforts, based on such finnsy foundation, have, of course, failed, and many persons have been sally bitten at the west. An inspection of the annexed statement exhibits the folly of the reports of a short supply

in this market, and, therefore, in all other markets, will, by October next, recode at least 4 shillings more on every barrel—which is equal to a decline in three months of a quarter of a million dollars on the aggregate quantity of flour manufactured in America. This appears clear enough. In view of a largely increased crop, some of which has already been safely harvested—a leasened demand at home, owing to the continued cheapness of animal food, and the abnutance of all kinds of fruits during this summer—and the improbability of more than even the smallest demand from abroad, we are constrained to the above conclusion. Time will shew its correctness.
